

**“It’s the little
hospital
that could...
and did.”**

“Last year, I was hospitalized for pneumonia and a rare form of meningitis. The physicians and nurses at NARH demonstrated first-rate care during my entire week-long stay. They made a difficult diagnosis swiftly and treated me with the right antibiotics immediately. I was unconscious and deathly ill when I arrived, and I am fortunate that NARH gave me remarkable attention and advocacy. NARH combines breathtakingly modern tools, skilled clinicians, and genuine, heartfelt concern for patients and their families. I am privileged to be on the mend...and to thank a small hospital that did a big job.”
